Register of Business Interests (Declarations)

Governors complete/review a hardcopy declaration annually and make a verbal confirmation that there are no new interests at each governing body and committee meeting. The declaration is for relevant business and pecuniary interests and includes governance roles in other educational institutions and material interests arising from relationships between governors or relationships between governors and school staff (ensuring that on-one should be involved in a decision where his or her personal interests may conflict with those of the governing body).

There are two main committees: Standards (Teaching, Learning & Assessment) and Resources. There is also an Ethos Working Party which meets regularly and is part of the Standards Committee.
